A FEW SIMPLE SPRING HOME MAINTENANCE PROJECTS

The long, grueling winter months can be hard on our homes and lawns. To keep your property in tip-top shape and prepare for the warmer seasons ahead, complete the task list below:

1. Inspect your roof for cracked or loose shingles. Have them repaired right away! The last thing you want is the hot summer sun to take its toll and cause further damage.
2. Clear gutters and downspouts. Without proper drainage, your home may take on water in the lower level. Prevent this by cleaning out your gutters!
3. Clean your air conditioner. Over time, dust and debris can collect on your air conditioning unit and negatively impact its performance.
4. Rake the lawn. Rake up leftover leaves and branches in your yard from the autumn season before they ruin the grass.

CHECK OUT OUR SAVINGS ACCOUNTS!

Did you know we have several savings accounts available for our members? Accounts include: Special Savings, IRAs, Certificate of Deposit, Galaxy Club, and much more! Visit our website for more information on each.
